

**AMENDMENTS TO THE SPECIFICATION**

Please replace the paragraph beginning at page 4, line 28 of the specification with the following replacement paragraph:

Fig. 7 is a graph showing that CoQ10 ~~reduces~~ increases the proliferation of human neonatal fibroblasts in a 48 hour in vitro culture.

Please replace the paragraph beginning at page 5, line 9 of the specification with the following replacement paragraph:

Fig. 14 is a graph showing the effect of CoQ10 administration on tumor size on mice treated topically with CoQ10 (1.0% or 1.5%) or control for 30 days. The Average tumor mass for the control vs. in the 1.0% CoQ10 and 1.5% CoQ10 treatment groups decreased by 52.3% and 54.0%, respectively, as compared to the control.
